

Düz ayarlanabilir el manivelaları

çinko pres döküm, burç / çelik galvanizli dişli saplama

ÖZELLİKLER

Kol

Çinko pres döküm

Plastik kaplama

siyah, RAL 9005, dokulu kaplama **SW**
turuncu, RAL 2004, dokulu kaplama **OS**

kırmızı, RAL 3000, dokulu kaplama **RS**
gümüş, RAL 9006, dokulu kaplama **SR**

Burçlu versiyon

Burç ve tespit vidası

Galvanizli çelik, mavi pasifleştirilmiş

Dişli saplamalı versiyon

Dişli saplama ve tespit vidası

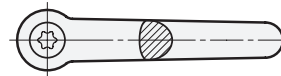

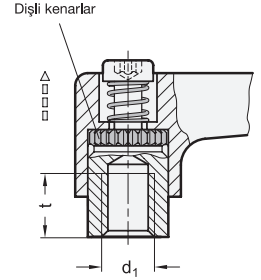

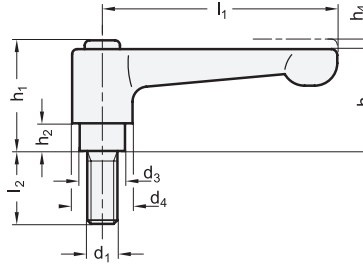

Galvanizli çelik, mavi pasifleştirilmiş

BİLGİ

GN 302.2 ayarlanabilir el manivela düz bir kola sahiptir, eğik değildir, kenetleme boşluğuna paralel olacak şekildedir.

Ayarlanabilir el manivela, dar bir alanda veya belirli bir kaldırma kolu pozisyonunda sıkıştırılması gereken parçalar için idealdir. Merkezdeki ek, kolayca devreden çıkarılabilen dişli kenarlar yoluyla manivelaya bağlanmıştır.

Kolu çekmek, dişli kenarları boşta bırakarak, en uygun sıkıştırma pozisyonuna dönmesine izin verir. Kol serbest bırakıldığında, dişli kenarlar otomatik olarak yeniden birbirine geçer.

* Kenetleme kolu gövdesinin renk indeksi birlikte verilir (SW, OS, RS veya SR)
