

Antimikrobiyal korumalı teknopolimer

Visually Detectable technopolymer, easy cleaning

MALZEME

Glass-fibre reinforced polyamide based (PA) technopolymer, RAL 5005 blue colour, matte finish.
FDA uyumlu hammaddeden üretilmiştir (FDA CFR.21 ve EU 10/2011).

STANDART UYGULAMALAR

- **VTT-SST-VD**: AISI 304 paslanmaz çelik göbek, dişli kör delik.
- **VTT-SST-p-VD**: UNI 947 : ISO 4753'e göre AISI 304 paslanmaz çelik dişli tabanca çivisi, pahlı uçlu (bkz. Teknik veriler sayfa).

ÖZELLİKLER VE UYGULAMALAR

The RAL 5005 blue colour is easily visible in case of accidental food contamination.

Particularly suitable for applications in the food and pharmaceutical industries.

The three-lobe shape with large recesses ensures an effective grip even with work gloves.

The design without rear cavities, generally adopted for reducing thickness, prevents unhealthy residues from depositing, ensuring easy cleaning. Particularly suitable for applications on machines and equipment whose parts must be frequently cleaned by using water jets or steam.
